THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2016/1036 of the European Parliament and of the Council of 8 June 2016 on protection against dumped imports from countries not members of the European Union ⁽¹⁾ (‘the basic Regulation’) and in particular Articles 11(4) and 14(5) thereof,

After having informed the Member States,

Whereas:

1. REQUEST

- (1) On 17 May 2022, the Commission received a request for a ‘new exporter’ review under Article 11(4) of the basic Regulation.
- (2) The request was lodged by Seven Star Lemon Technology co., Ltd. (‘the applicant’), an exporting producer of citric acid in the People’s Republic of China (‘the PRC’).

2. PRODUCT UNDER REVIEW

- (3) The product under review is citric acid and trisodium citrate dihydrate, currently falling under CN codes 2918 14 00 and ex 2918 15 00 (TARIC codes 2918 15 00 11 and 2918 15 00 19) and originating in the PRC.

3. EXISTING MEASURES

- (4) The measures currently in force are a definitive anti-dumping duty imposed by Commission Implementing Regulation (EU) 2021/607 ⁽²⁾ under which imports of the product under review originating in the PRC, including the product produced by the applicant, are subject to a definitive anti-dumping duty of 42,7 % with the exception of several companies specifically mentioned in Article 1(2) of that Regulation which are subject to individual duty rates.

4. GROUNDS FOR THE REVIEW

- (5) The applicant provided sufficient evidence that it did not export the product under review to the Union during the investigation period on which the anti-dumping measures were based (1 July 2006 to 30 June 2007).
- (6) The applicant provided sufficient evidence that it is not related to any of the exporting producers of the product under review which are subject to the anti-dumping duties in force.
- (7) Finally, the applicant provided sufficient evidence that it has begun exporting the product under review to the Union after the end of the original investigation period, namely from June 2021.

⁽¹⁾ OJ L 176, 30.6.2016, p. 21.

⁽²⁾ Commission Implementing Regulation (EU) 2021/607 of 14 April 2021 imposing a definitive anti-dumping duty on imports of citric acid originating in the People’s Republic of China as extended to imports of citric acid consigned from Malaysia, whether declared as originating in Malaysia or not, following an expiry review pursuant to Article 11(2) of Regulation (EU) 2016/1036 of the European Parliament and of the Council (OJ L 129, 15.4.2021, p. 73).

5. PROCEDURE

5.1. Initiation

- (8) The Commission examined the evidence available and concluded that there was sufficient evidence to justify the initiation of a 'new exporter' review pursuant to Article 11(4) of the basic Regulation, with a view to determining the applicant's individual margin of dumping. Should dumping be found, the Commission will determine the level of the duty to which the imports of the product under review produced by the applicant should be subject.
- (9) In accordance with Article 11(4), the normal value for the applicant shall be determined following the methodology laid down in Article 2(1) to (6a) of the basic Regulation, as the latest expiry review of the measures was initiated after 20 December 2017.
- (10) Union producers known to be concerned were informed of the request for a review on 28 November 2022 and were given an opportunity to comment until 12 December 2022.
- (11) The Commission also draws the attention of the parties that further to the COVID-19 outbreak a Notice ⁽³⁾ has been published on the consequences of the COVID-19 outbreak on anti-dumping and anti-subsidy investigations that may be applicable to this proceeding.

5.2. Repeal of the existing measures and registration of imports

- (12) Pursuant to Article 11(4) of the basic Regulation, the anti-dumping duty in force should be repealed with regard to imports of the product under review produced by the applicant. At the same time, such imports should be made subject to registration in accordance with Article 14(5) of the basic Regulation, in order to ensure that anti-dumping duties can be levied from the date of the registration of these imports should the review result in a finding of dumping in respect of the applicant. Furthermore, the Commission notes that it is not possible, at this stage, to provide a reliable estimate of the amount of possible future liability, without prejudice to Article 9(4) of the basic Regulation. Should the request be withdrawn and the review terminated, the amount of the liability for the registered imports will be based on to the anti-dumping duty rate established by Regulation (EU) 2021/607 for 'all other companies', namely 42,7 %.

5.3. Review investigation period

- (13) The investigation will cover the period from 1 January 2022 to 31 December 2022 ('review investigation period'). However, the Commission reserves the right to also examine if transactions may have occurred in a subsequent period, and may amend the review investigation period as appropriate in light of the findings of the investigation.

5.4. Investigating the applicant

- (14) In order to obtain information it deems necessary for its investigation, the Commission has made a questionnaire for the applicant available in the file for inspection by interested parties and on the website of the Directorate-General for Trade <https://tron.trade.ec.europa.eu/investigations/case-view?caseId=2652>. The applicant must submit the completed questionnaire within the time limit specified in Article 4(2) of this Regulation.

- (15) Subject to the provisions of this Regulation, all interested parties are invited to make their views known, submit information and provide supporting evidence. Unless otherwise specified, this information and supporting evidence must reach the Commission within the time-limit specified in Article 4(2) of this Regulation.
